Dear Sir,

Re: ICRA-assigned Credit Rating for Rs. 1031.09 crore Line of Credit of McLeod Russel India Limited (instrument details in *Annexure*)

This is in reference to the periodic monitoring of ICRA assigned credit rating for the long term/ short term borrowing programme of Mcleod Russel India Limited ('Your Company or You').

Please note the Rating Committee of ICRA after due consideration of the latest developments has revised the long-term rating from [ICRA]B- (pronounced ICRA B minus) to [ICRA]D (pronounced ICRA D). The short-term rating has also been revised from [ICRA]A4 (pronounced ICRA A four) to [ICRA]D (pronounced ICRA D). The ratings continue to remain on 'Issuer Not Cooperating' category.

The aforesaid ratings will be due for surveillance anytime before July 31, 2019.

The ratings as stated above are specific to the terms and conditions of the LOC as indicated to us by you. In case there is any change in the terms and conditions, or the size of the rated LOC, the same must be brought to our notice immediately. Any such change would warrant a rating review, following which there could be a change in the ratings assigned. Notwithstanding the foregoing, any change in the over-all limit of the LOC from that specified in the first paragraph of this letter would constitute an enhancement that would not be covered by or under the said Rating Agreement.

ICRA reserves the right to review and/or, revise the above rating at any time on the basis of new information or unavailability of information or such other circumstances, which ICRA believes, may have an impact on the rating assigned to you.

You are requested to furnish a monthly 'No Default Statement (NDS)' (in the format enclosed) on the first working day of every month, confirming the timeliness of payment of all obligations against the rated debt programme [interest and principal obligations for fund based as well as obligations under LOC/BG for nonfund based facility]. This is in accordance with requirements prescribed in circular dated June 30, 2017 on 'Monitoring and Review of Ratings by Credit Rating Agencies(CRAs)' issued by the Securities and Exchange Board of India.

Material Event

McLeod Russel India Limited (MRIL) has announced its annual results for FY2019 on June 29, 2019. The company reported an operating income of Rs 1719.7 crore with a net profit of Rs 38.8 crore during FY2019 as against an operating income of Rs 2055.1 crore and a net profit of Rs 219.20 crore during FY2018 on a consolidated basis. The total debt has significantly increased on account of high exposure to weak group companies, which has been largely funded by short-term debt.

Impact of the Material Event

ICRA has downgraded the ratings on the Rs 1031.09-crore fund-based and non-fund based bank facilities of MRIL to [ICRA]D (pronounced ICRA D) from [ICRA]B-(Negative)/[ICRA]A4 (pronounced ICRA B minus/ICRA A four). The ratings continue to remain in the Issuer Not Cooperating category owing to non-submission of no default declaration.

Rationale

The rating revision factors in MRIL's recent delays in meeting debt obligations in a timely manner. ICRA, in its earlier releases, had highlighted the continued pressure on the liquidity profile of the company owing to high financial exposure to weak group companies, which was largely funded by short-term debt, thus exposing the company to significant refinancing risks. ICRA had also earlier noted that, though the company had received a majority of the proceeds from sale of some of the tea estates, the delays in utilising such sale proceeds in debt reduction had resulted in significantly high financial leverage of the company, and the sizeable debt repayment obligations were unlikely to be met from its operational cash flows.

The previous detailed rating rationale is available on the following link: Click here

www.icra.in

Key rating drivers

Credit strengths

Being one of the largest bulk tea producers in domestic markets; geographically diversified production base — Notwithstanding the reduction in volume post sale of some tea gardens, both in the domestic and overseas operations, MRIL continues to remain one of the largest bulk tea producers from India. The company produced around 89 mkg of tea in India during FY2018; however, after sale of 20 gardens in FY2019 and Q1 FY2020, the volume is likely to reduce to around 55 mkg. The overseas operations would make an additional 26 mkg (post sale of some gardens), taking the total consolidated production to around 81 mkg.

High productivity and bought-leaf operations reduce risks associated with the fixed-cost intensive nature of operations to some extent - The average realisation of MRIL's produce fetches a premium over the auction averages, indicating the good quality of teas produced. The favourable age profile of MRIL's tea bushes, with around 72% of the Indian bushes below 50 years of age, also helps record a healthy tea estate yield.

Credit challenges

Delay in debt-servicing owing to stretched liquidity position – MRIL has recently delayed meeting its debt obligation in a timely manner. The tight liquidity position owing to high advances to weak group companies, its loss-making tea operations and significantly high debt repayment requirements have led to the delay in its debt servicing.

Exposure to group companies increases the overall debt levels and puts pressure on debt coverage – MRIL has significantly increased the financial exposure to weak group companies, from Rs 645 crore in FY2018 to Rs 1745 crore in FY2019. These advances were largely funded by short-term debt raised in MRIL's books, exposing the company to significant refinancing risks. ICRA further notes that although the company has received a majority of the proceeds from the sale of tea estates, the delay in utilising such sale proceeds in debt reduction resulted in significantly high financial leverage of the company. The considerable increase in financial expenses in FY2019 on such high debt levels adversely impacted the debt coverage indicators of the company.

Significant deterioration in core tea operation- Pressure on core operating profitability persists as depressed tea prices were not adequately compensating for the increase in wage costs, notwithstanding the cost-reduction initiatives taken by the company. In FY2019, the company reported significant losses at the operating levels. The performance of the overseas operations in CY2018 was also adversely impacted owing to subdued tea prices in the African market.

Risks associated with tea for being an agricultural commodity as well as the inherent cyclicality of the fixed cost-intensive tea industry - Tea production depends on agro-climatic conditions, which subject it to agro-climatic risks. Moreover, tea estate costs are primarily fixed with labour-related costs, which are independent of the volume produced, accounting for around 50% of the production cost. This leads to variability in profitability and cash flows of bulk tea producers such as MRIL.

Liquidity position

MRIL's liquidity position is stretched as evidenced by the delay in it meeting its debt obligation. The high advances to weak group companies, the loss-making tea operations and a significant debt obligation resulted in tight liquidity position of the company.

Consolidation / Standalone	For arriving at the ratings, ICRA has analysed MRIL's consolidated financials comprising domestic operations as well as overseas operations through a wholly-owned subsidiary, Borelli Tea Holdings Limited, along with other stepdown subsidiaries mentioned in Annexure 2.

About the company

McLeod Russel India Limited (MRIL), the tea plantation company of the Kolkata-based B.M. Khaitan Group, was originally incorporated as Eveready Company India Private Ltd. on May 5, 1998. MRIL was formed after the demerger of the bulk-tea business from Eveready Industries India Ltd. (EIIL) with effect from April 1, 2004. MRIL has acquired several other companies like Williamson Tea Assam in FY2006, Doom Dooma Tea Company in FY2007 and Moran Tea in FY2008. These acquisitions helped MRIL increase the number of tea estates to 53 in India with 33,723 hectares (Ha) of total land under tea cultivation. MRIL also acquired tea estates through its subsidiaries in Vietnam (three tea estates and seven factories), Uganda (six tea estates and five factories) and Rwanda (two tea estates and two factories) between CY2009 and CY2014, which took the total production to around 118 mkg on a consolidated basis in FY2018. In the recent past, MRIL has sold/signed MoUs for 20 tea estates, both in Assam and in the Dooars. MRIL is primarily a producer of CTC tea, which accounts for around 96% of the total tea production.

In FY2019, on a standalone basis, the company reported a net loss of Rs. 4.4 crore on an operating income of Rs.1309.9 crore, compared to a net profit of Rs. 67.3 crore on an operating income of Rs. 1,592.8 crore in the previous year. On a consolidated basis, the entity reported a net profit of Rs.38.8 crore in FY2019 on the back of an operating income of Rs. 1,719.7 crore against a net profit of Rs. 219.2 crore on operating income of Rs. 2,055.1 crore in the previous year.
